INTRODUCTION

Precipitation Station Designation	1
State Well Number	2

APPENDIXES

I. Cross Index of Precipitation Station Numbers, Station Designation to Location Number	I- 1
J. Cross Index of Precipitation Station Numbers, Location Number to Station Designation	J- 1
K. Cross Index of Well Numbers, State Well Number to Location, State Serial, Riverside or Local, and Bulletin 39-J Numbers	K- 1
L. Cross Index of Well Numbers, State Well Number to Ventura Number	L- 1
M. Cross Index of Well Numbers, Ventura Number to State Well Number	M- 1
N. Cross Index of Well Numbers, Location Number to State Well, State Serial, Riverside or Local, and Bulletin 39-J Numbers	N- 1
O. Cross Index of Well Numbers, State Serial Number to State Well, Location, and Riverside or Local Numbers	O- 1
P. Cross Index of Well Numbers, Riverside Number to State Well, State Serial, Location, and Bulletin 39-J Numbers	P- 1
Q. Cross Index of Well Numbers, Bulletin 39-J Number to State Well, Location, and Riverside or Local Numbers	Q- 1

INTRODUCTION

Presented in this volume are cross indexes between the State Well Numbers and various numbering systems in common use in southern California, including those formerly listed in the Bulletin No. 39 series. Also included are cross indexes between the location designation of precipitation stations used in this publication and the numbering system formerly used in the Bulletin No. 39 series. These cross indexes apply only to wells and precipitation stations for which data are presented in Volumes II and III.

The numerous cross indexes in this volume and the vast amount of precipitation and water level data found in Volumes II and III could not have been compiled within a reasonable time without the aid of high-speed data handling machines. Much of the procedures for machine handling of data were developed with the assistance of the Disbursing Office of the State Controller. However, use of these procedures required the establishment of uniform numbering systems and codes to represent information. The State Well Number was selected for the well numbering system and the latitude and longitude for designation of precipitation stations. A discussion of these number designations is presented in the following paragraphs.

Precipitation Station Designation

The precipitation station designation used herein is based on the longitude and latitude of the station to the nearest second. This designation gives the actual location of the station to the nearest 100 feet.

State Well Number

The well numbering system employed herein is that originated by the United States Geological Survey according to township, range, and section subdivision of the Federal Land Survey. It conforms to that used in all ground water investigations made by the United States Geological Survey in California and has been adopted by the Department of Water Resources.

Under the system, each section is divided into 40-acre plots called lots, which are lettered as follows:

D	C	B	A
E	F	G	H
M	L	K	J
N	P	Q	R

Wells are numbered within each of these lots according to the sequence in which they have been assigned State Well Numbers. For example, a well having the number 10N/18E-26A1,S would be in Township 10 North, Range 18 East, Section 26, S.B.B. & M., and would be further located as the first well in lot A, which has been assigned a State Well Number. In this report, well numbers are referenced either to the San Bernardino Base and Meridian (S) or the Mount Diablo Base and Meridian (M).

For some wells the letter following the Section Number is designated "X". This indicates that the well has been field located and accurately

plotted with respect to its position on the map, but that the map control for the Public Land Survey is at present too poor to warrant assignment of the lot number.

Attention is directed to the Bulletin No. 39-J Number and the Riverside Number, because both of these numbers also utilize the township, range, and section designation used in the State Well Number. For example, for the well for which the State Well Number is 4S/1W-9Q2; the Bulletin No. 39-J Number might be 4S/1W-9B, and the Riverside Number 4S/1W-9R2. In the cross indexes presented in this volume, the township, range, and section designation is included for only the first column of these three numbers which appear on the page. For example, in Appendix K, the township, range, and section designations have been retained for the State Well Number 4S/1W-9Q2 but have been dropped from the Bulletin No. 39-J Number which is shown as "B", and the Riverside Number which is shown as "R2".
